MASTER CYLINDER INTEGRAL BARREL TYPE

NG6 is listed as being fitted to all cars from 400 - 405 but not 404's, (NO1)

NG6 is also listed for 406's but there is some possible doubt about this as some 406's may have been fitted with the NO1 404 cylinder, although this may have been a later modification.
TO BE VERIFIED LATER.

Bristol
